

Der vorliegende Langzeitkalender beginnt 1583 mit dem ersten kompletten Jahr des Gregorianischen Kalenders (Kalender neuen Stils). Die Einführung dieses Kalenders wurde am 15. Oktober 1582 von Papst Gregor XIII. vorgenommen. Nur Italien, Portugal und Spanien nahmen ihn sofort an. Die katholische Bevölkerung in Deutschland nahm diesen Kalender schon im Laufe des Jahres 1583 an. Die evangelische Bevölkerung dagegen rechnete weiterhin, bis 1700, nach dem Julianischen Kalender (Kalender alten Stils). Dadurch wurden in Deutschland in dieser Zeit beide Kalender nebeneinander benutzt und Ostern nicht nur an verschiedenen Daten, sondern oft auch an verschiedenen Sonntagen gefeiert. Erst seit Anfang des 20. Jahrhunderts besitzt weltweit nur noch der Kalender neuen Stils Gültigkeit.

Um den Langzeitkalender auch für den Zeitraum von 500 bis 1939 alten Stils benutzbar zu machen, sind die nachstehenden Übersetzungstabellen erforderlich. In der 1. Übersetzungstabelle steht hinter jeder Jahreszahl alten Stils die Festzahl. Bei den Schaltjahren sind die Festzahlen mit einem Sternchen versehen. Jede dieser Festzahlen erhält schließlich in der 2. Übersetzungstabelle eine dem gesuchten Jahr alten Stils entsprechende Jahreszahl neuen Stils zugeteilt und wird dadurch auf dem Langzeitkalender einstellbar.
